SUMMARY

Magento 2 / Adobe Commerce Developer skilled in backend and frontend customizations, module development, and API integrations. Passionate about building high-performance, scalable, and user-friendly e-commerce solutions while continuously learning new technologies to enhance online shopping experiences.

Work History

Allure Commerce LLP - Magento Developer (9th Aug 2022 - 11th Apr 2025)

- Developed custom functionalities for admin grids, console commands, cron jobs, indexing, import/export, share cart, share compare and implemented frontend features based on business requirements.
- Managed Adobe Commerce version upgrades and applied patches based on Adobe SWAT reports to maintain security and performance.
- Designed and developed setup charge-based products and brand-specific products based on customer registration requirements.
- Implemented custom product options with dynamic pricing, enabling users to select options via a custom search dialog. Options were imported through CSV (priority, name, price) and configured to fetch data from either the fragrance table or product catalog based on store configuration.
- Took full ownership of projects by leading end-to-end website development, collaborating with cross-functional teams to gather requirements, and ensuring timely, high-quality delivery.
- Worked with Adobe Commerce Cloud features, including Live Search, Product Recommendations, Adobe I/O Events, Webhooks, and Mesh API, to enhance functionality and user experience.

Enovate Lifestyles PVT LTD - Magento Developer (Sept 2021 - Aug 2022)

- Customized and enhanced the Candere by Kalyan Jewellers website (candere.com) to meet business requirements.
- Integrated bank offers, product reviews, and implemented conditional logic for dynamic features.
- Built a "Wheel of Fortune" signup feature with OTP verification via mobile/email, improving user engagement and security.
- Assisted the migration team with bulk uploads of CMS pages, blocks, and categories using console commands.
- Customized Google and Facebook feeds, along with sitemap generation, to improve SEO and ensure data consistency.
- Worked on performance optimization, security enhancements, and bug fixes to deliver a smooth user experience.

Iksula Services Pvt Ltd - Magento Developer (June 2020 - Sept 2021)

- Worked extensively on the Orra Jewellery website (orra.co.in), delivering customizations and new features for both front-end and back-end operations.
- Developed Magento 2 modules, including Shop by Look, Desired Collection, Liquiloan EMI Integration, and Custom Listing Page using Elasticsearch.
- Mentored junior developers on Magento architecture, module development, performance tuning, code quality, and best practices.
- Collaborated with the team to set up Magento sites, debug issues, and optimize system performance.
- Reduced page load time by optimizing Elasticsearch and database queries.
- Integrated third-party services such as payment gateways, shipping providers, and marketing tools to enhance site functionality.

Hands In Technology - Web Developer (Feb 2017 - May 2020)

- Developed websites using Core PHP, WordPress, and Magento, delivering solutions tailored to business requirements.
- Created custom admin dashboards in Core PHP, adding features based on client needs and building REST APIs for mobile applications.
- Implemented SEO enhancements (tags, triggers, events) that improved website performance and search rankings.
- Built reusable PHP modules and APIs for seller and customer apps (Aptime), integrating Firebase notifications and SMS gateways.
